Taha Construction company (Pvt Ltd) is a brand name for a group of entities having its presence in the field of supply of Construction materials, manpower services, engineering works (civil, mechanical, and electrical) engineering consulting, HVAC systems, steel scrap, minerals, interior designing, farming, industrial catering, and real estate facilitation. We have vast experience working with reputable organizations locally as well as some Chinese companies operating in Pakistan.

Chief Executive Officer

MISSION

Our Mission is to offer excellent service in each of our professional disciplines, in accordance with statutory practices, codes of conduct, and integrity, thereby developing our team and providing a leading platform from which to service the built environment and in particular, our valued Clients. The company is incorporated under Company's Act and is headed by a dynamic, motivated and efficient team currently led by our CEO, **Eng Malik Shahid Joyia**. Company sees Team work and hands-on approach on all our projects on every project as the key success ingredient and is responsible for creating this environment.

VISION

Our challenge has always been the same, that even at the lowest possible profit, we should use the best materials to build the strongest buildings so that we can be safe from any sudden disasters and our country becomes stronger. Our construction work, thank God, has been and will continue to be of very high quality.

Taha Construction company (Pvt Ltd)

VISION & MISSION

To be a premier, innovative, evolutionary and diversified business entity having its presence through out the world while passionately working for exponential growth of all of its stakeholders, Pakistan being the most prominent one.

"At Taha Construction company (Pvt Ltd), we are focused to relentlessly innovate and **implement industry standard best practices**, while achieving high customer satisfaction in the field of Engineering, Construction, Project Management & Business Consulting.

OUR VALUES

- High Standards - be the BETTER solution provider, setting foundations for long-term value.
- Build Trust - take responsibility for commitments, actions, and recommendations.
- Pragmatism - balance innovation and creativity with business awareness and productivity.
- Open Communication - communicate clearly and efficiently up and across the business.
- Collaboration - respect individual work while creating success for the team initiative.

CORPORATE FOOTPRINT

Employee & Workers' Welfare

We value and care for our employees and consider all workers and staff as one family. We provide them with good working conditions at site, proper accommodation, medical facilities, flexible work timings, quality foods and other benefits. Further, our employees are like a family and accommodate them in their good and bad times. This includes:

- Part-time work
- Fully remote teams
- Work-from-anywhere arrangements
- Compressed work weeks

Health & Safety Environment

At Taha Construction company (Pvt Ltd), we intend not only to take special measures to ensure our employees' well-being but also to make certain that our most potential customers are provided with utmost protection against prevailing health & safety hazards. Here in Taha Construction company (Pvt Ltd), we train our management with IOSH & NEBOSH principles.

It was for the same reason that Taha Construction company (Pvt Ltd) while managing projects at several sites, reinforced and implemented every possible method to comply with industry-standard health & safety, and globally accepted best practices. From our top-level management to our project team at Construction sites, all personnel are required to follow Health & Safety Policies.

CORPORATE FOOTPRINT

Job creation and earning potential

T.Con has been providing manpower services to various clients at Thar, Rashakai and Jhumpir. On site, we have been able to provide employment to over 200 workers (including technical staff) and off site people associated with us are more than 50. We have been trying our best to compensate each of them appropriately and rewarding them for their due efforts.

Covid 19 and Related Measures

In the pandemic environment, we were only safe if our communities were safe as well, therefore, various measures were taken in Thar and Jhumpir sites and surrounding areas, including regular disinfection, free COVID-19 testing and provision of rations to more than 1,500 families.

Training and Development

Taha Construction company (Pvt Ltd) provides platform and guidance to talented staff and plays an important role in their development.

This includes on the job training, support in setup of microenterprises for willing employees, supporting for higher education, and providing internship opportunities for the development of future leadership.

Compliance with Tax & Other Regulations

Taha Construction company (Pvt Ltd) believe in compliance of all government rules and regulations and has been paying due taxes and duties since its inception.

HEALTH & SAFETY STAFF

OUR CAPABILITIES & SKILLS

Taha Construction company (Pvt Ltd)

One of the keys to our successful Construction projects are Taha Construction company (Pvt Ltd) reliable policies. From monitoring the day-to-day activities of staff on a Construction site and to ensuring the project is finished on time and within budget. We think that a Construction company has huge responsibilities critical to a project's outcome. Beyond managing a project, we assure to report our projects progression regularly to the client and other stakeholders.

Industry Knowledge: The Construction sector is dynamic, with new materials and Construction techniques being researched and developed each day. Therefore, we urge to learn and always hire new talent in our company.

Flexible Planning: Over the course of a Construction project, things don't always go as planned. We keep aspect ratio so small changes can easily snowball into large ones.

Communication: Our projects have several stakeholders, including the client, outsourced suppliers, subcontractors, and others. Being on the same page is of utmost importance.

Risk Management: We understand that there will always be a risk that some things will change from the initial plan. Our Staff, along with their team, are capable to determine potential risks and devise a plan to address them even before a project begins.

Financial Management Managing the finances of a project is one of the biggest responsibilities, as any small change can result in the project going over budget. We are always able to track project spending and make forecasts, and even explore other opportunities for financing.

Technological Affinity : While the Construction industry is still one of the least digitized sectors, it is slowly but surely catching up with the latest technological trends. For this reason, we always seek to have an affinity for the latest innovations that can help improve efficiency, collaboration, and success rates.
